HERITAGE

A young entrepreneur and a revolutionary scientist, Ph. Niyazi Kurtisan, planted the seeds of 'Kurtisan' at a compact pharmacy in İstanbul, 69 years ago with the vision of healing people through the power of nature. At a time when 'herbal medicines' and 'natural living' were just a dream to many, Ph. Niyazi Kurtisan developed pharmaceuticals, remedies and cosmetics from the miraculous plants of Anatolia, Turkey.

Since 1955, Otaci has been a pioneer brand in the natural skincare, cosmetics and pharmaceutical world; the first ever herbal shampoo, first ever herbal throat lozenges and natural food supplements in its origin.

Otaci aims to protect human health through the healing power of nature. Our vision is to be a global brand that heals people with environment-friendly and high-quality herbal products inspired by nature.

Otaci is the reliable, premium, local and the most honest natural and herbal alternative to the daily ritual of all personal care&cosmetics.

Rosa damascena

The hills of Isparta in the Mediterranean are surrounded by a Cloud of excitement in the magical month of May. With the sunrise, farmers make their way to the beautiful rose gardens of Isparta, a town known as the Capital of Roses in the Mediterranean. They handpick every single one of the petals of the most delicate and valuable flowers, Mediterranean Rose, “Rosa damascena”. Our delicate roses are rushed to our GMP approved pharmaceutical factory to create Otaci Rose Passion with the most valuable oils & extracts of the Mediterranean Rose, “Rosa damascena”. Rosa damascena forms a herbalist’s floral ritual to purify, revive and hydrate the face and body. Made from this Mediterranean Rose, a miracle treatment that is indigenous to the city of Isparta, Otaci’s skin products naturally promote beauty through formulas that optimize cellular moisture, firmness, nourishment and softness.

- For the local treatment of nasal symptoms of the common cold, allergenic pollinosis and rhinitis.
- Topical nasal sinusitis decongestant to reduce inflammation and redness.

Food Supplements

OTAmaximun

ACTIVE INGREDIENT:

1 capsule contains 150 mg of Echinacea extract, 100 mg of Beta-glucan, 60 mg of vitamin C and 5 mg of zinc as an active ingredient (1 to 2 capsules per day are recommended).

Indication:

Echinacea extract strengthens the immune system against pathogenic infections through the activation of neutrophils, macrophages, polymorphnuclear leukocytes (PMN) and natural killer (NK) cells.

- The Beta-Glucan, a natural polysaccharide, affects the cytotoxicity of NK cells and the activation of macrophages as an immune system stimulator. The zinc has a function on cells which acts on natural immunity, such as NK cells and neutrophils.

Code: 141028

Vitamin C promotes immune defense by supporting various cellular functions of the natural and adaptive immune system. It also supports the function of epithelial barrier against pathogens, while increasing the efficiency of oxidative cleansing of the skin. It thus offers potential protection against environmental oxidative stress.

OTAIMUZINC

ACTIVE INGREDIENT:

Sambucus Nigra extract 65mg, Vitamin C 60 mg, Zinc 0.18mg (4 lozenges a day is recommended)

Indication:

Sambucus Nigra extract alleviates cold and flu symptoms, increases body resistance with the vitamins it contains, has an antipyretic effect, and provides benefits as an antioxidant. Zinc is important for the normal development and function of cells that mediate innate immunity, such as NK cells and neutrophils.

Vitamin C contributes to immune defense by supporting various cellular functions of both natural and acquired immune system.

Code: 141014

Vitamin C also supports the epithelial barrier function against pathogens, increases the oxidant cleaning efficiency of the skin. By this way, it provides potentially protection against environmental oxidative stress.

OTAIMUFLU

ACTIVE INGREDIENT:

30 mg of Pelargonium Sidoides root extract, 64 mg of Sambucus Nigra extract, 240 mg of ginger rhizome, 60 mg of vitamin C (2 sachets per day recommended).

Indication:

The African Geranium has an immunostimulant effect (stimulating the immune system). It also has antiviral, antibacterial and antifungal effects. The Sambucus Nigra extract relieves symptoms of cold and flu, supports the resistance of the body with the vitamins that it contains. It has an antipyretic effect and offers benefits as an antioxidant agent.

The Ginger Rhizome has anti-inflammatory, analgesic, immunostimulant, antiemetic, bronchodilator and antioxidant effect.

Code: 141010

Vitamin C promotes immune defense by supporting various cellular functions of the natural and adaptive immune system. It also supports the function of epithelial barrier against pathogens, while increasing the efficiency of oxidative cleansing of the skin. It thus offers potential protection against environmental oxidative stress.

Food Supplements

OTAmxivir

20ml - 50ml

Anti-inflammatory and immunomodulatory effect of Pelargonium and the antioxidant and antiviral effect of Vitamin C relieve the symptoms of viral infections. When used at the onset of illness, OTAMAXIVIR shortens the duration of the disease and alleviates symptoms. OTAMAXIVIR, in drop form, offers ease of use for both adults and children.

Code: 141029

Code: 141030

OTABron

100ml

It is used for productive (phlegmy) coughs associated with cold.

Code: 141065

OTABron Kids

100ml

It relieves cough with the expectorant effect of Thyme and Primrose. Its effectiveness has been proven by clinical studies. Does not contain preservative additives. Suitable for vegetarians.

Code: 141066

OTAtusin

100ml

ALTHEA OFFICINALIS contains mucilages as the active substance. The mucilages it contains create a thin layer on the throat and reduce the irritation caused by the dry cough. Otatusin mechanically relieves the patient by cutting the cough and throat pain.

Code: 141048

OTAnatura Herbal Oral Mist

30ml

Ingredients: ALTHEA OFFICINALIS contains mucilages as the active substance. Eucalyptus, Melaleuca, Carnation, Thyme OTANATURA relieves inflammation and pain in the throat in flu and colds and has a supportive effect on symptoms with its antibacterial effect. Provides a refreshing breath with the eucalyptus and thyme it contains. Used in adults by spraying 2 puffs into the mouth 4 times a day.

Code: 141102

OTAtusin Kids

100ml

It does not have any central side effects like other cough syrups. Its effect is felt within 10 minutes after starting use. Suitable for vegetarians. Does not contain preservative additives.

Code: 141047

OTAvit D3K2Herbal Drop

20ml

Recommended Daily Intake Dosage: It is 11 and over.

Ingredients: Each drop (0.0338 ml) contains: 25 µg Vitamin D3 (cholecalciferol), 11.25 µg Vitamin K2 (menaquinone 7). Menaquinone 7 is the most active form of vitamin K. Each drop (0.0338 ml) contains: Vitamin D3/25 µg Vitamin K2/11.25 µg

Helps maintain bone and heart health in postmenopausal women. Supports bone health by maintaining calcium balance. Increases osteoblastic activity, aiding in the formation of healthy bone tissue. Helps prevent arteriosclerosis, a primary culprit of cardiovascular disease. Supports the functions of the immune system, helps improve body resistance.

Code: 141132

www.kurtsanmedikal.com

The Kurtisan Medical Industry and Trade Company was established in 1988 using German technology to produce medical dressings and hospital supplies. The facilities of the WHO (World Health Organization) with an area of 5,500 m² conforming to GMP (Good Manufacturing Practices) rules were inaugurated in 1992 on an area of 55,000 m² in Bandırma. Kurtisan Medical, all of whose products comply with the conditions determined by the Ministry of Health, is certified with ISO 9001 Quality Management Certificate since 2003 and ISO 13485 Medical Equipment Manufacturers Quality Management, ISO 14001 Environmental Management System and ISO 18001 occupational health and safety management system certificates in subsequent years. Kurtisan Medical, ranks among the top companies with the Roll Bant brand of wound dressings and health products. The main brands and products in the market are exported to Europe and other countries around the world.

Wound Strips

Roll Bant

Classic Wound Strips

With its textile backing material and rubber adhesive, it adheres well to the skin and is economical. It can be used for a long time. The double-layer absorbent pad does not stick to the wound. Protects injured skin against external factors.

Size: 30x10pcs

Code: 140240

Roll Bant Heel Plaster

Rollbant Heel Tape is used to prevent blisters and bruises and to relieve pain caused by friction. It reduces pressure and friction. It absorbs the resulting liquids.

Size: 4pcs/box

Code: 140492

Roll Bant X Large

In cases where normal length band-aids are not sufficient, they are produced long enough to be wrapped in several layers to keep the band on the finger for a long time. It is air permeable. It has strong adhesive.

Size: 2x12cm-10pcs/box

Code: 140835

Roll Bant Soft

It is designed to be used for simple injuries such as minor cuts and scrapes. Its soft textured structure provides comfortable use on the skin. Protects injured skin against external factors. It is air permeable.

Size: 20pcs/box

Code: 141088

Roll Bant Protect Plus

Rollbant Protect-Plus bandages provide superior protection by preventing the passage of water and bacteria to the wound, thanks to its adhesive polyurethane film backing structure suitable for sensitive skin. It is air permeable and flexible.

Size: 10pcs/box

Code: 140333

Roll Bant Blue

Rollbant Blue Band-Aid is blue in color and has a metal-containing layer. It can be used in food production units. It can be used by everyone thanks to its adhesive suitable for sensitive skin. It is flexible and adapts to body curves.

Size: 20pcs/box

Code: 141166

Contract Manufacturing

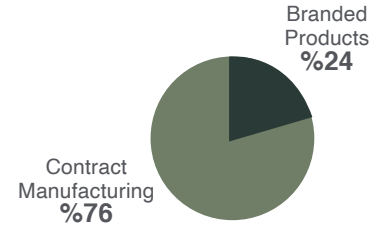

CREATE YOUR OWN BRAND!

Do you have laryngitis or pharyngitis?

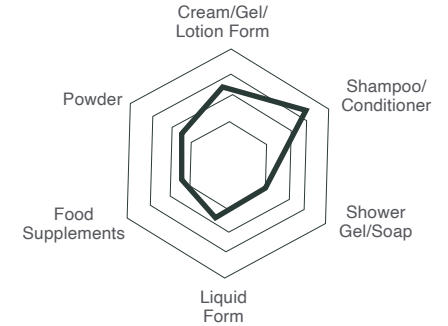

Kurtsan Group's professional team is helping to parents from all around the world to create their own brands with the respect of confidentiality.

Expertise in contract manufacturing:

Balance in various forms:

Sustainability at Kurtsan Holding

We prioritize giving back to people and nature above all. We aspire to enhance nature with technology, and in doing so, use green, herbal and natural ingredients in our cosmetics, vegan certified ingredients to minimize our impact on other living creatures and dispose of waste in least harmful ways possible. Furthermore, we have been supporting education by funding university students with needs for over three decades and empowering women at our workplaces since the birth of our company. We separate our sustainability objectives under nature, waste disposal, education, gender equality and quality with equal emphasis on all.

Nature

We aspire to use natural ingredients, not only because it is our heritage from our founder Niyazi Kurtsan, but also due to our understanding of business ethics. We have received various certifications and awards to cement our sustainability mentality such as European Vegetarian Union Vegan Certifications, ISO Istanbul Industry Organisation Large Scale Businesses Innovative Nature Friendly Finalists, Turkish Nature Preservation Organisation Green Point Gold Awards and GMP (Good Manufacturing) Certifications.

Waste Disposal

Our companies comply with GMP and ISO 14001 standards in waste disposal. ISO 14001 certification which is a globally recognized management system standard published by ISO (International Organization of Standardization). It provides a tried and tested framework for ensuring regulatory compliance. Implementing an Environmental Management System is a solid way to identify and control the effects of our company on the environment. However, this is only the first step in our approach to waste disposal. We take proactive steps and make further investments to assure we are not only in compliance, but also a visionary in this area. We have made continuous investments in waste treatment and solvent recycling as well as organising internal competitions amongst our employees to find innovative solutions to waste disposal methods.

Education

Kurtsan Science, Art and Education Fund naturally existed since the formation of Kurtsan Holding. However, it was officially registered in 1993 with the understanding that science and art are the strongest foundations in educating and exalting people in serving the society and humanity, and contributing to social and cultural development of society. Every year we add between fifteen to thirty new students to our list of scholarships and we selectively choose high calibre students whom may not have the chance to attend university in absence of this support. We thrive to make a real impact in our world with our almost one thousand graduates.

Gender equality

We aspire to providing gender equality with the vision deriving from our second generation partner Meltem Kurtsan who is also the honorary founding president of Womens' Entrepreneurship Association of Turkey. At our manufacturing facility in Bandirma, we are one of the very few companies in Turkey who has a majority in female employees with an approximate of 60:40 ratio. Similar ratio can be found throughout our offices. Besides, we understand that pay equality and women in higher levels of management are of serious concern and we are proud that our top management roles have been compensated with equal opportunities and positions covered by a similar if not larger ratio to our manufacturing facilities since 1990s.

Quality Policies

We have ISO 18001 Occupational Health and Safety Management Certification which is an international standard that provides a framework to identify, control and decrease the risks associated with health and safety within the workplace. Implementing this standard sends a clear signal to our stakeholders that we view employee's health and safety as a priority within our organisation.

The ISO 22000 family of International Standards addresses food safety management which we have also obtained. The consequences of unsafe food can be serious and ISO's food safety management standards help organizations identify and control food safety hazards. It maps out what an organization needs to do to demonstrate its ability to control food safety hazards in order to ensure that food is safe.

ISO 13485, Medical devices – Quality management systems – Requirements for regulatory purposes, is an internationally agreed standard that sets out the requirements for a quality management system specific to the medical devices industry. We also fulfill the requirements for this standard accompanied by its certification.
